

To whom it may concern

Benoît Cassagnau has been tutoring my son and myself since Autumn 2025 in French. My son is bilingual, but my French needs a lot of work, despite us having lived in France a number of years.

He is extremely reliable, both personable and professional. What makes Benoît an exceptional teacher is that he adjusts his teaching methods to each individual. This is thoughtfully done, not only to each student's level of French, but he gauges what inspires and motivates you to learn French in a fully immersive format.

I cannot recommend him more highly and I know that my son's peers have also had the same experience with his teaching, as he was well recommended to us.

Sincerely,
