Recommendation letter

I, Andrea Hernández Flórez, Colombian citizen with ID No.1020809353 from Colombia, attest to having taken French classes with Mr. Benoit Cassagnau for an approximate 8 year period (2005-2013) in the city of Bogotá, Colombia.

I can say that Benoit is academically, an excellent professional, since his methods were always interesting and original. He prepared my brother and I, who also took classes for the same period of time, for the international DELF French exam. An exam in which I got a good score and is now a diploma that I carry within my curriculum and personal achievements in life.

Additionally, on a personal level, I can assure that Benoit is a totally upright and outstanding person, responsible in what he does and is very knowledgeable. I had the opportunity to literally grow by his side and he's always been a person with values, with a humble personality. He as a teacher is always open and willing to learn.

Afterwards, I finished my school studies in Colombia and due to this I finished the French lessons with him in 2013. Today, I'm currently living in Buenos Aires developing my profession as an editorial graphic designer. Knowing French is an additional skill that has always been a great help at the time of applying to different universities and jobs. It is also a useful skill that has opened doors to artistic pursuits such as reading & literature, music, movies...etc. I think about applying to a master degree somewhere in Europe, and knowing the language allows and motivates me to go to France or Switzerland. All this being possible thanks to the great professional and person that is Benoit.

I sign at today's date and validate this letter written by myself
