Subject : recommendation letter

Benoit has been my french teacher for more than four years. When I started my classes I didn't know any french at all, and today I am able to have a fluent conversation as well as listen to the news and understand them.

Benoit has a very good methodology to teach, and doing the homeworks, one can improve quite quick. In addition he is always looking to teach through different documents, which he brings in accordance with my preferences.

He is a very good person, very respectful and very professional. I highly recommend him and I am quite grateful with him.
