To Whom It May Concern,

I am writing to highly recommend Mr. Benoît Cassagneu as a French teacher. He provided private French instruction to my two daughters in Colombia for several years.

During the time he worked with our family, Mr. Cassagneu consistently demonstrated professionalism, dedication, and exceptional teaching ability. He has a remarkable talent for adapting his teaching methods to the specific needs and personalities of his students.

With my eldest daughter, who was preparing for her B2 French examination and had limited time available for homework due to other academic commitments, he thoughtfully structured the lessons so that most of the essential work was completed during their sessions. His focused and strategic preparation played a key role in her progress and confidence with the language.

With my younger daughter, his approach was dynamic and engaging. He made the lessons interactive and enjoyable, fostering not only strong language development but also genuine enthusiasm for learning French.

Beyond his pedagogical skills, Mr. Cassagneu was always punctual, organized, and respectful. He built a positive and motivating learning environment that encouraged both discipline and curiosity.

I wholeheartedly recommend him for any teaching position. I am confident that he will be an asset to any educational institution and will positively impact his students as he did with my daughters.

Please do not hesitate to contact me if further information is required.

Sincerely,

Cecilia E Sandoval
