

To whom it may concern,

I cannot recommend Benoit Cassagnau highly enough. He has worked with both of our children (CM2 and 3ème), and the impact has been incredible. Beyond just the academic side, we've seen a massive boost in their confidence. In fact, our son's French teacher specifically noted in his report that his progress has been 'dazzling.'

What sets him apart is his ability to adapt his style to each child. He makes learning genuinely fun and interactive—using everything from songs to online videos—while still being highly proactive, well-prepared, and productive. He keeps them on task and motivated throughout the session. If you are looking for an outstanding tutor who truly cares about a student's attitude toward learning, he is the one!

Kind regards,

Mike and Emma.
